FAR OUT IN THE GALAXY...

Build your own card house

Stitch has no idea how a pet should behave. He's turned the house upside down, destroying everything in his path! Can you help fix the mess? Rebuild the house with this game!

1+
PLAYERS

- 1 Take two cards, one in each hand, and lean the top edges of the cards against one another. Make sure they form a triangle with the table.
- 2 Repeat the previous step a few times and place the triangles next to each other.
- 3 Place a card horizontally on top of the triangles to create the base.
- 4 Repeat making triangles as you did in step one. But this time, it gets more challenging: place the triangles on top of the foundation of your card house.
- 5 When you can't place any more layers on top of the card house, then you've reached the top! How tall can you make your card house?

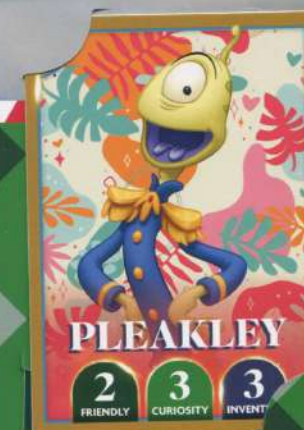

Help your family

Lilo's unwavering belief in 'ohana, which means "family" in Hawaiian, allows Stitch to discover something he's never known before: what it feels like to be part of a family and take care of one another.

Show that you care for your family by doing something kind. Here are some ideas:

- Give a heartfelt compliment
- Ask if you can help carry the shopping bags
- Cook with a family member while singing a song (inspired by the tropical sun!)
